Central Road Products

CENTRAL ROAD
PRODUCTS (PTY) LTD

ROAD MARKING

ABOUT

CRP (Central Road Products) provides Road - Line Markings done at the highest standards. A Hoffmann H33-3 line marking machine is used for water or solvent based road marking applications.

All work done is in accordance with the relevant SABS, SANS and other specifications

ROAD MARKING PAINT

Different types of road marking paints are used including water based and acrylic solvent based paints in accordance to client requirements

WATER BASED ROAD PAINT

- Very durable layer road paint
- Good glass bead retention
- Twice the performance life of alkyd based solvent paint

ACRYLIC SOLVENT ROAD PAINT

- Good performance in low traffic areas
- Problem free application
- Suitable for coastal areas

ROAD STUDS

STA + 52

3M™ High Impact Polycarbonate Lens mechanically inserted into the inside of the main housing
Lens protected with a 5mm wall thickness Polycarbonate lens protector

Scratch resistant to ASTM D4383-96

Abrasive Resistant to ASTM D4383-96

FERRO LYNX A200

The Ferro Lynx A200 galvanised cast iron stud has the Swareflex elements glued and crimped into its body for added adhesion.

This stud is only manufactured with the 43 reflective element.

The body of the stud is "hot dip" galvanized which has proved extremely durable under road tests in the harshest conditions.

STIMSONITE MODEL C80

Proven to improve delineation and increase preview time

Abrasion resistant coating provides enhanced retained reflectivity

Advanced optics deliver high reflectivity and durability

B10 Traffic Buttons are round non-retro reflective raised pavement markers

OUR VISION & MISSION

To be a competitive supplier of products and services in the road building industry

To instil a culture of team work and a proud belonging within the company.

To offer sustainable business opportunities to qualified business entrepreneurs, in the exclusive distribution, application and contracting with our products to the national market in accordance with pre-defined planned strategic policies.

To create equal employment and growth opportunities within the organisation

To provide a comprehensive range of coating solutions, application equipment & accessories which are technically sound and fit for purpose catering for the diverse requirements of the South and Southern African markets.

CENTRAL ROAD
PRODUCTS (PTY) LTD

ROAD PRODUCTS

OVERVIEW:

All our reflective sheeting products have been independently tested and proven to be best-in-class for reflectivity, brightness and visibility. That applies in all weather, at all times of day and night, and for all kinds of driver and viewing angles.

The temporary road signs are made with DM reflective sheeting and Avery Dennison for pure perfection.

We also produce project boards, computer cut vinyl signs, vinyl print signs, magnetic signs, building and vehicle signs and safety symbolic signs.

Road Signs

Central Road Products is also a supplier of temporary road signs and related products

At Central Road Products, we design, manufacture and install the full range of temporary road signs available to Southern African Development Community (SADC) standards, SA Road Traffic Act requirements and to National, Provincial and Municipal and South African Road Traffic Sign Manual (SARTSM) specifications. (the motorist, cyclist and pedestrian).

HEALTH & SAFETY

ALWAYS PROTECTING OUR PEOPLE AND THE ENVIRONMENT

The protection of people and the environment is a top priority at Central Road Products, and it strives to undertake its developments with repairable impact on the environment, while causing minimal disruption to the resident and transient population. To the End, it is constantly seeking ways to improve its construction techniques. A stringent quality management system, together with sound business practices ensures that projects are completed according to clients' specific requirement, on time and within budget.

HEALTH AND SAFETY

The management of Central Road Products is committed to an active Health and Safety Program and will provide leadership and support to achieve and maintain the highest standards.

The safety and health function consists of integrated participation between management and employees and strives to achieve a workplace which is free of hazards.

Management accepts their responsibility to inform those who may be exposed to hazards in the workplace and to develop appropriate operation standards as part of an effective prevention program.

OUR HEALTH & SAFETY MANAGEMENT SYSTEM AIMS AT:

- Health and Safety
- Injury prevention
- Economic loss reduction
- Property damage prevention
- Eliminating losses caused by unplanned interruption to operations
