INTRODUCTION

ABOUT

- South African Road Binders (SARB) specializes in the manufacturing, supply and application of the various bitumens binders in the road construction industry.
- All our products are tested by independent SANAS accredited laboratories to ensure compliance with relevant specifications and requirements

EXPERTISE

The manufacture and supply of the full range of bitumenous binders and bitumen related products i.e:-

- Penetration grade bitumen and modified binders for all types of chip and spray activities.
- Penetration and cut back binders for prime and pre - coating.
- Bitumen emulsions - both stable and spray grades.

Our qualified and experienced teams provide high quality surfacing finishes in every aspect of chip and spray, asphalt overlay, conventional slurries as well as micro-surfacing to various National, Provincial and Municipal State-owned entities as well as contractors on maintenance, re-surfacing and rehabilitation projects.

Our Vision and Mission

Vision

As a Level 2 B-BBEE contributor, to be competitive in providing long-term construction solutions in the dynamic engineering environment that is the African continent.

Values

- Leadership with dignity and honour
- Teamwork that incorporates the project initiators, the local population and our own committed spectrum of skills
- A standard of quality excellence that ensures sustainability of our products.
- An understanding of environmental impact that results in careful planning and execution.

Mission

To successfully undertake any bitumenous related construction projects using best-practice construction techniques, in accordance with a stringent quality management system. All activities are undertaken with minimum impact to the environment and disruption to the affected population.

Work History

NRA R056-067-2014/1

Special maintenance on route R56 between Elliot and Maclear in the Eastern Cape

Sprayed and delivered - 12.3Mil Liters

NRA X.003-013-2016/1

Rejuvenation programme of certain National Routes in the Southern Region (Eastern Cape)

Sprayed and delivered - 1.65Mil Liters

NRA R.063-089-2015/1

Resurfacing of National Route R63 from Graaff-Reinet

Sprayed and delivered - 2.1Mil Liters

NC443A

Reseal of R63 from Williston to Carnarvon

Sprayed and delivered - 1.33Mil Liters

Health & safety

ALWAYS PROTECTING OUR PEOPLE AND THE ENVIRONMENT

The protection of people and the environment is a top priority at South African Road Binders, and it strives to undertake its developments with repairable impact on the environment, while causing minimal disruption to the resident and transient population. To the End, it is constantly seeking ways to improve our product and construction techniques. A stringent quality management system, together with sound business practices ensures that projects are completed according to clients' specific requirement, on time and within budget.

HEALTH AND SAFETY

The management of South African Road Binders is committed to an active Health and Safety Program and will provide leadership and support to achieve and maintain the highest standards.

The safety and health function consists of integrated participation between management and employees and strives to achieve a workplace which is free of hazards.

Management accepts their responsibility to inform those who may be exposed to hazards in the workplace and to develop appropriate operation standards as part of an effective prevention program.

OUR HEALTH & SAFETY MANAGEMENT SYSTEM AIMS AT:

Health and Safety

Injury prevention

Economic loss reduction

Property damage prevention

Eliminating losses caused by unplanned interruption to operations
